

*PATIO MAKEOVER (Feature: 5030)*

Paved floors, pretty plants, patio furniture, and more turn a neglected pergola into a pretty patio.

## *SYNOPSIS*

The structure of this backyard pergola was sound and well-designed but the ground beneath was uneven and muddy. Once a level paved floor was installed, this formerly neglected space became a sweet little hideaway shaded by an apple tree that's a perfect spot to entertain or sit and watch kids play.
